

HEAD START

of Lincoln County

Program Overview

Providing **FREE** preschool education for kids ages 3-5, your child will learn in a nurturing environment with a "whole child" approach, considering their learning styles, health on all levels, and any special needs they may have.

We know that parents and family are children's first teachers, so we work closely with families in the structure of our program and each student's individual plan. In addition to family meetings at each site, we have one-on-one visits with families at home or school for individualized care. Once a part of Head Start, you are a part of the larger Community Services Consortium (CSC) family and network of programs, all of which your Family Advocate at school can help connect you with.

Head Start is a national program serving children and families for over 55 years, and proven to make a difference in preparing your child for kindergarten and a life of learning. All of our sites maintain a **5-star rated Spark** program, the highest quality designated by the Oregon Department of Education's Early Learning Division.

Your child deserves a **Head Start** in life, and we invite you to join us!
