

# Steps to Become a Pollywog Partner

**1** Meet with us! We want to hear about your organization and the families you serve in our community and answer all your questions.

**2** Paperwork - not always a fun step but we're here to help if needed. This includes our MOU, a list of who will access Pollywog in your organization, and a checklist of your services.

**3** Watch our online training videos and sign our log-in form. Follow-up Zoom or in-person training is available if you have questions.

**4** Get started using Pollywog - connect your families to resources, connect with other local partners in partner meetings, and share your events and services on our social media.

**5** Help parents learn about Pollywog with our brochures and wallet cards, a monthly newsletter and our website that features parenting classes, a weekly blog, and resources for families with children in our communities.
